Projects

Development and restructuring of the admin panel website of AtiNegar Company
For: AtiNegar Engineering Analysts
September 2024
In this project, the structure and appearance of the admin panel were entirely updated, and new sections were added to this admin panel, which led to gaining experience and familiarity with the back end as well. The languages and frameworks used:
*ASP.Net MVC
*Bootstrap
*JS
The final project design is available in video file format, and you can contact me in the virtual space to watch the project.
